

Technical Parameter

- ◎ Size : 205L*35W*39H mm
- ◎ Metal body case
- ◎ Bolt : 16mm DIA, stainless steel 16mm throw
- ◎ Voltage : DC12V±10%
- ◎ Start current : 900mA, Standby current : 120mA
- ◎ Induction distance : 8 mm
- ◎ Force holding : 1000Kg
- ◎ 5 lines time delay : 0,3,6,9sec
- ◎ Door status Output, NC/COM
- ◎ Suitable for : Wooden door, Glass door, Metal door, Fireproof door
- ◎ Low Temperature situation when lock work

Advantage

- ◎ Low temperature, safe
- ◎ Low power consumption
- ◎ Durable and silence operation
- ◎ Reverse current protection PCB
- ◎ locking mechanism (Up to 500000 operations)
- ◎ MOV provides reverse current protection
- ◎ CE approved
